

EXIT DRILLS IN THE HOME

Smoke Alarms

Did you know, as a California resident you are required to have at least one operating smoke alarm in your home?

9-1-1

Be sure to know the location of telephones in the home. It also is very important for children to know "911" in order to report emergencies to authorities.

Design your own fire escape plan, sketch the floor plan of your home on a piece of paper.

Indicate all your doors, windows, and other areas you could use in an emergency escape.

Use the sketch to draw arrows indicating the normal exits, these would be your primary escape routes.

Use an alternate color and draw arrows to indicate a secondary exit from each room, such as windows.

Be sure to identify a meeting location outside the home where family members can meet once outside.
